Electronics & Computer Science Student  
Web Development Enthusiast

## About Me

I am a Electronics & Computer Science student with an interest in tech. My goal is to learn new skills and grow as a developer.

## Skills

- HTML
- CSS
- JavaScript
- React JS
- Python

## Experience

Position	Company	Duration
Game Developer Intern	Game Developers Association , CRCE	June 2024 - July 2024
Web Developer	XYZ Media Pvt. Ltd	January 2025 - March 2025
Web Developer	ABC Media Pvt. Ltd	January 2026 - Present

## Projects

### TrainEase – Full Stack Train Ticket Booking System

Built a full-stack train ticket booking app with complete flow including search, seat selection, booking, ticket generation, and history. Implemented role-based authentication and protected routing for users and admins using Firebase Auth and React Context API. Designed Firestore schema (users, trains, bookings) and implemented real-time queries and filters. Developed admin dashboard with user reports, login/logout tracking, and CSV export.

- Technologies Used: React.js, Firebase Auth, Firestore, Tailwind CSS, Vite
- Duration: October 2025 - January 2026

### Cloud-Based Academic Repository (Team Project)

Contributed to building a cloud-based document repository solving secure academic file storage and structured access issues. Implemented secure authentication and document management features supporting organized uploads and retrieval. Deployed using Azure services including Azure Static Web Apps, Azure VM, and Azure Database with environment based configuration. Tested APIs, resolved integration issues, and improved system reliability through debugging and edge-case handling. Validated functionality with 300+ test records and multi-user access simulation.

- Technologies Used: React, Node.js, Firebase, Microsoft Azure
- Duration: November 2025 - December 2025

# Education
